Re: Vaxxinity, Inc.
Amendment No. 1 to

Draft Registration Statement on Form S-1

Submitted September

16, 2021

CIK No. 0001851657

Dear Ms. Hu:

We have reviewed your amended draft registration statement and have the following  $% \left( 1\right) =\left( 1\right) +\left( 1\right) +$ 

comments. In some of our comments, we may ask you to provide us with information so we

may better understand your disclosure.

Please respond to this letter by providing the requested information and either submitting

an amended draft registration statement or publicly filing your registration statement on

EDGAR. If you do not believe our comments apply to your facts and circumstances or do not

believe an amendment is appropriate, please tell us why in your response.

 $\hbox{ After reviewing the information you provide in response to these comments and your }$ 

amended draft registration statement or filed registration statement, we may have additional

comments.

Amendment No. 1 to Draft Registration Statement on Form S-1

Prospectus Summary Our Solution, page 2

1. Please revise your disclosure to explain what you mean by your product candidates have yielded "comparatively high" response rates, "high" target-specific antibodies against selfantigens and "relatively long" durations of action in clinical trials conducted to date. Please also revise your disclosure to provide the data from the preclinical and clinical studies that support this statement.

2. Please revise to remove the statement in the chart on pages 3 and 110 that your product candidates penetrate

the BBB at a higher rate than mABs. It appears that this statement is  $\mbox{\it Mei}$   $\mbox{\it Hu}$ 

Vaxxinity, Inc.

Page 2

based on a preclinical trial and the first part of a Phase 1 clinical trial of UB-312. It also

appears that these trials were not head-to-head trials with mABs. Use of Proceeds, page 78

3. We note your revisions in response to prior comment 9. Please revise to disclose whether  $\ensuremath{\mathsf{S}}$ 

you will be able to complete your Phase 2 clinical trial for UB-311 with the proceeds from  $\,$ 

this offering and how far you expect to reach in the development of each of your other

existing chronic disease product candidates and UB-612A with the proceeds from this  $\,$ 

offering.

Gross Profit, page 92

4. We note your discussion for the six months ended June 30, 2021 of gross profit

percentage excluding the impairment of ELISA test inventory represents a non-GAAP

measure. Please revise to include all of the disclosures required by Item 10(e) of

Regulation S-K or modify the discussion to remove the non-GAAP measure.

Business

COVID-19 Program

Development Strategy, page 142

5. We note your disclosure that your preliminary data gives you reason to believe that  $\ensuremath{\mathsf{UB}}\xspace$ -

 $\,$  612A could be meaningfully more effective than UB-612. Please revise to remove any

implication that UB-612 is effective since it has yet to be approved.

You may contact Eric Atallah at 202-551-3663 or Kevin Kuhar at

202-551-3662 if you

have questions regarding comments on the financial statements and related

matters. Please

contact Ada D. Sarmento at 202-551-3798 or Jeffrey Gabor at 202-551-2544 with any other  $\dot{}$ 

questions.

Sincerely,
